London W1J 6BD

SHAREHOLDER UPDATE

Further to our 15 May 2014 update, we can now confirm that Andina plc has been admitted to the Asset Match Private Market (“AMPM”) with immediate effect.

AMPM is an electronic peer-to-peer platform for the buying and selling of unquoted company shares via periodic auctions. All auctions clear at a single price using a non-discretionary pricing algorithm. It is intended that the first auction will be held in August 2014 and shareholders and investors will be provided with further information, including how to buy and sell, in due course. Once the first auction has been completed, our intention is to hold future auctions monthly.

In the meantime any shareholders interested in this facility should register at www.assetmatch.com and add Andina plc to their watch list. Asset Match will send an email to those who have added Andina plc to their watch list when the auction dates have been confirmed together with details of how to access all necessary information and documentation. Any queries about the Asset Match trading facility should be directed to dealing@assetmatch.com with the subject “Andina plc”.

Operational and financial information on Andina plc can be found on our website at www.andinapl.com and we would encourage you to regularly review this site for updates. Furthermore, if you are interested in receiving information by email please forward your email address to info@andinapl.com together with your name and address and, if different, the name and address under which your shares are registered.

If you have any questions please do not hesitate to contact us at info@andinapl.com
